## Scoring Guide (Rubric) for ALL Assignments in ALL Classes

### 4

This is my best work because:

- I have answered all the parts of the assignment, followed all instructions, have shown that I clearly understand the concepts and have presented my ideas in a clear and logical manner.
- All my written responses follow the standard English requirements of sentence structure, spelling, and punctuation.
- When appropriate, my assignment demonstrates my understanding and use of technology.

### 3

This work is acceptable because:

- I have answered all the parts of the assignment, followed all instructions and shown most of my work.
- I have used complete sentences even though they may be short.
- When appropriate, I have attempted to use technology.

### 2

I understand that I may have to redo some of this work because:

- I missed some parts of the assignment and did not follow all of the instructions.
- My answers were as brief as possible and I did not show my reasoning.
- I may not have used standard English sentences.

### 1

I definitely have to redo this assignment because:

- I missed a lot of the assignment because I did not understand and I did not ask the teacher for help.
- I copied parts of the source (e.g.; book, website, etc.) or just wrote anything to fill up space.
- I did not take the time to correct my paper for mistakes in English sentences
- I did not show that I understand the concepts presented in the lesson.
